

Hyve Managed Hosting

The UK's leading managed hosting provider

We are your cloud experts

Combining our small team ethos with a passion for technology, we provide fully managed, global cloud hosting services.

We deliver a range of hosting services, from mission-critical private cloud to managed cloud, colocation and security services. Our customers range from start-ups to market leaders, spanning a wide scope of industries from the public sector to financial services and beyond.

Adopting a customer-centric approach, our expert engineers become an extension of any business, excelling in tailor-made 24/7/365 support and centralised management.

We deliver business outcomes

Optimise your performance

Supercharge your business potential with our VMware-powered cloud solutions. Experience optimal performance from industry-leading hardware, with high availability built-in, 100% network and power uptime guaranteed.

Get the support you need

We don't believe in passing customers around support tiers. With our 'direct-to-engineer' service, our highly qualified and experienced support engineers become an extension of your business and are available 24/7/365.

Scale your platform with ease

Reap the benefits of our high-performance cloud platform that seamlessly scales with your business. Simply consult with our team of experts to scale your resources up or down as required to cater to market changes or user demand.

Secure your cloud environment

Run your business with the peace of mind that our certified security experts will fulfil your compliance requirements, proactively detect and respond to threats, and minimise any downtime from potential breaches.

Work with an award-winning cloud hosting provider

Our award wins and accreditations showcase why we're the UK's leading cloud hosting provider. We pride ourselves on our extra-mile service, with our 4.9 excellent Trustpilot score, setting us apart from the competition.

Our mission is to... empower businesses to innovate and grow, with a secure, reliable and "always-on" managed worldwide infrastructure.

We become an extension of your business

Supporting you from the very beginning, our support team go the extra mile to take the headache out of managing your IT infrastructure.

We provide best-in-class architecture

We only partner with industry-leading providers who invest in cutting-edge technology, enabling digital transformation and continuous innovation.

We deliver true value for money

We pride ourselves on providing high-quality, cost-effective solutions, where each platform is built to your bespoke requirements.

Tailor-made hosting solutions

Private Cloud

Stay competitive while enjoying optimum performance and increased cost savings in a controlled, private cloud environment, running on dedicated hardware.

Dedicated Servers

Keep your sensitive data locked down with our ultra-secure dedicated servers. Dedicated means it's solely for you – so you won't have to share resources with anyone else.

Enterprise Cloud

We provide the ease of scale and cost savings of public cloud infrastructure, but with added security, monitoring and management on a multi-tenant cloud.

Colocation

We partner with the world's leading data centre providers, offering true global reach with enterprise-class security, resilience and performance.
